INDEX TO "TROPICAL AGRICULTURE"

Index to Volume VIII—January to December, 1931.

Nos.	Months.	Pages.
1	January	1-24
2	February	24-48
3	March	49-76
4	April	77-108
5	May	109-136
6	June	137-168
7	July	169-196
8	August	197-224
9	September	225-252
10	October	253-280
11	November	281-308
12	December	309-336

Memoirs.

Mycological Series : Pages.

No. 4.—Macrophomina Phaseoli (Maub.) Ashby, in Trinidad. Part 1, Parasitism by J. West. Part 2, Physiology by W. R. Stuckey (January) 20

Supplement.

(III)—The Cacao Soils of Tobago by F. Hardy, C. G. Akhurst and G. Griffith (February) .. 22

College News Bulletins.

January, April, July, October. 16

GENERAL INDEX.

A.

PAGES.

Acknowledgment 75, 110
Agricultural Departments, Colonial 221
do. Officers 281-82
American Cattle, South 19
Animals, Botulism in 38-39
Appointments, Colonial 64, 97, 277
Association, Cocoa Planters' .. 315
do. Liverpool Cotton .. 325-26

B.

Bagasse, Sub-Sampling of .. 298-99
Bamboo Pulp 41
Banana Diseases, I 227-30
do. II 293-98
do. III 327-31
Banana Storage 139-47
do. Transport, Wastage in .. 255-64
Bean Disease, A Coffee 14-17
Biological Control 302-04
do. I 98-102
do. II 124-27
do. in Mauritius .. 310
Bird of Paradise, The 127
Books Received 47, 135, 195, 248
Borers, Sugar-Cane 283-88
Botulism in Animals 38-39
Breeding Abstracts, Plant .. 195
Bureau, Imperial Soil 70-71
Butter, Shea Nuts and 72

C.

Cacao, *see* Cocoa.

1-3. Illustrates types of crosses between various breeds of cattle 312

BANANA DISEASES.
1-3. Illustrating parasitism of Gloeosporium musarum (Cooke and Massee) 313

GLOEOSPORIUM STRAINS.
Strains of "Gloeosporium musarum" Cke. and Massee, grown on Brown's synthetic potato dextrose agar 332

SEED STORAGE AND GERMINATION.
1. Soya bean germination after six months storage 333
2. Soya bean germination after ten months storage 333

PAGE.

LOW PURITY MASSECUITES.
Fig. 1.—Variation of temperature per cent. sucrose crystallising from mother liquor and co-efficient of supersaturation 5
Fig. 2.—Weight of sucrose crystallising from mother liquor in each 12-hour period 6
Fig. 3.—The temperature gradient suggested for cooling a low purity massecuite 8

DISTILLED LIME OIL.
Distilled lime oil—price in shillings, spot London 40

WITCH BROOM CONTROL.
Diagram showing extension growth and pruning requirements 88

CITRUS PROPAGATION.
Solar Propagator—sectional plan 91

ENTOMOLOGY IN THE TROPICS.
Arrangement of parasite boxes 120
FUSARIUM WILT DISEASE OF SUNN HEMP, I
Fig. 1.—Curve of macroconidium length 153
Fig. 2.—Showing the difference in time of wilting within and outside the former Sunn Hemp areas 157
Fig. 3.—Showing the relation of growth of Sunn Hemp Fusarium to H- and OH-ion concentration 157
Chart 1.— 4 weeks growth 154
Chart 2.— 6 weeks growth 154
Chart 3.— 8 weeks growth 154
Chart 4.—10 weeks growth 155
Chart 5.—15 weeks growth 155
PALM OIL IN NIGERIA.
Ripening of palm fruit pericarp in Nigeria 171
WEST INDIAN HURRICANES.
Fig. 1.—Showing distribution of isobars 179
Fig. 2.—Mean path of West Indian hurricanes from 1876-1911 180
Fig. 3.—The position of an observer in relation to an approaching hurricane 180
Fig. 4-5.—The development of a more or less circular motion of the wind around the central area 182
Fig. 6.—Chart showing the points of origin of 150 hurricanes 182
WASTAGE IN BANANA TRANSPORT.
Fig. 1.—Relation between temperature and amount of stalk-rotting produced by (1) Gloeosporium musarum, (ii) Fusarium sp. 259
Fig. 2.—The percentage numbers of loose bananas in shipments of bananas 263
TROPICAL DAIRYING PROBLEMS.
Fig. 1.—Several variations in milk yields 312
Fig. 2.—Comparison of milk yields in wet and dry "dry-seasons" (Jamaica) 312
Fig. 3.—Lactation yields of cows with different proportions of European and Zebu blood .. 314
